

# Willow Class Autumn 2018

## Science

We will learn about:

States of Matter:

- to compare and group materials together
- to observe that some material change state
- learn about evaporation and condensation

Sound

- identify how sounds are made
- recognise that sounds travel through a medium to the ear

## P.E.

We will:

- develop our ball skills and playing team games

## Computing

We will:

- learn about algorithms and networks

## History

We will:

- explore the invasion of the Vikings – when, how and why they came to Britain
- discover Viking culture and history
- investigate the Viking way of life

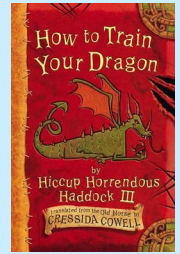

## R.E – What do different people believe about God?

## English

We will:

- read 'How to Train a Dragon'
- use the text to develop our own writing skills and vocabulary
- improve our spellings, punctuation and grammar.

## Maths

We will:

- to work on formal written methods for all 4 operations
- build our knowledge of fractions, decimals, measures, shape, position & direction, tables and graphs
- use what we've learnt to solve problems and reason mathematically

## DT/ Art/ Music

As artists/designers we will:

- develop our sketching skills
- use our printing skills to produce a Viking design
- look at joins and materials to develop a Cam toy

As musicians we will:

- compose music and look at musical notation
